

# Z-rated compound

Friction vs temperature

Z-rated on- or off-road compound. This offers the highest on- or off-road performance for any application.

PFC's Z-Rated compound was the first to gain European ECE Regulation 90 approval from any brake manufacturer for motorcycle applications.

Excellent and consistent performance in both dry and wet conditions for all riders.

With a slower wear rate, this makes it ideal for Trail Enduro and long-distance touring bikes. Very good fade resistance.

At Performance Friction® every employee has "passion for the product" ... and it shows ...

PFC Brakes continues to be the market leader wherever drivers demand unrivalled performance and quality – No Compromises™.

Our brake calipers, discs and pads outperform the competition in all markets, from professional racing to commercial fleets.
